

INSTANT USABILITY AND BETTER USABILITY

Cisco Unified Communications solutions deliver rich, intuitive and seamless communication capabilities that enhance productivity and collaboration by streamlining how people communicate.

The Cisco Unified Communications solutions can more effectively meet customer needs by integrating reliable, high-quality Jabra headsets. Jabra headsets enable a rich, person-centric communication experience as a result of being integrated with Cisco Unified IP Phones and Cisco Unified Communications Clients. Jabra headsets complete the end-to-end Cisco voice solution.

This simple Quick Start Guide enables you to maximize the benefits of CIPC with your Jabra headset solution.

1. FIRST TIME USE OF JABRA HEADSETS WITH CISCO CIPC 7.0(3)

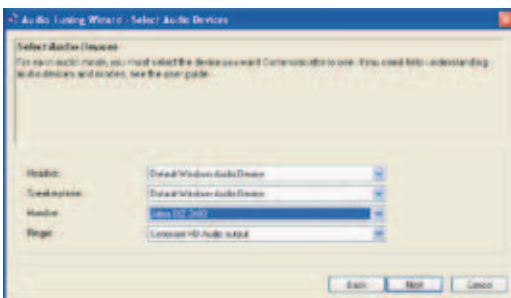

- Plug your Jabra headset into the USB port on the computer
- Launch your CIPC 7.0(3)
- Wait briefly for Windows to install

2. SETTING UP YOUR JABRA HEADSET IN THE AUDIO TUNING WIZARD

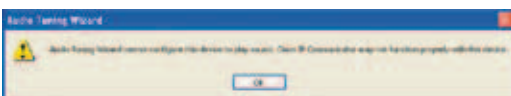

- Right-click on CIPC and select Audio Tuning Wizard

- Select the active Jabra headset as handset

- If CIPC presents a configuration statement, select 'OK'

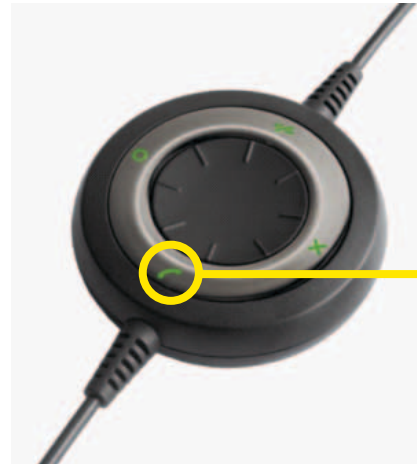

- Restart CIPC and the installation of your Jabra headset is complete

3. TEST THE HOOK FUNCTIONALITY

CORDED PRODUCTS

- Press the hook button on the inline call control - dial tone can be heard

- Dial the number
- The call is activated - ringing tone can be heard

WIRELESS PRODUCTS

- Off hook headset, specific to individual products - dial tone can be heard
- Dial the number
- The call is activated - ringing tone can be heard

IMPORTANT

For optimum functionality of your Jabra headset you might have to close and re-open your CIPC.

If Jabra PC Suite is installed the Cisco driver has to be de-installed to secure optimal usability.
